DMG MORI USA - CNC machine tools for all cutting machining applications Even if you lose or you did the least damage on the team, if you play 'with' your team and they do the same, then you definitely did not play a bad game.

I'm also a support main, so I know that Supports are 80% of the time the reason for an adc to have a bad laning phase.. DMG MORI is a worldwide leader of cutting machine tools for turning and milling, as well as a comprehensive supplier in additive manufacturing using powder nozzle and powder bed.. Thanks for listening to my rant

The screenshot shows a game interface with a dark background. At the top, there are six circular icons representing different game mechanics: HPS, Potion Use, Avoidable Dmg, Shatter, Inferno Slice, and Overwhelming... Below these icons, the text 'view gear, talents, and glyphs' is visible. The main part of the interface features two large sections: 'Zoopercat' with a 664 item level and 'Raid' with a 666 avg item level. To the right of the 'Raid' section, there are two statistics: '666 recommended item lvl' and '97% wipe rate at your lvl', with the '97%' value circled in yellow.
