However, it seems that the plan did not work out as Microsoft wished, since PDF is still the dominant format of choice when it comes to sharing files online.. It should also be said that, just like PDF files, XPS files are not editable, since they are designed for sharing and publishing purposes.. The only thing you have to look out for is that the link for downloading your converted file will expire 24 hours after you have performed the conversion.. You'll see that a number of conversion options are offered Choose the one you need, enter the email address to which you want a converted file to be delivered, and wait a couple of minutes for the conversion to be completed and forwarded to you.
